MALARIA AND YELLOW JACK

(Frem N. Y. Merald, January 14, 1991)
"The widow of Dr. Lazsare, who, in the employ of the Government, went to Cuba, was inoculated with Yellow Fever through mosquito bites, and died, applied to Congress for relief to-day."

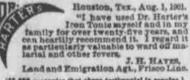

The above tells of the and culmination of a series of experiments by the Government, all of which proved conclusively that the familiar mosquito is a dangerous vehicle for carrying Mainria, "Yellow Jack," and other malarial fevers.

Those who are exposed to mosquitos or other malarial influences should take warning. Iron is the fighting element in the blood and provides nature with sufficient resistance to ward off disease. But if the blood is impure or impoverished, or if there is weakness, it means that the fighting qualities of the blood have been lowered, and consequently there is danger. If you would escape, keep the blood pure and properly nourished with

An attempt to enter the residence unknown burglar Monday night, who later forced an entrance to the residence of L. R. Scott, secured trunk but departed without taking any of its contents.

The prowler was frightened away from the Oborn residence by bearing the sound of voices. It is supposed that he then visited the Scott residence and forcing an en trance ransacked the house while the occupants slept, obtaining only the small sum of money. He carried a dark laptern, the flash from which was seen by Mr. Oborn, who called the attention of Mrs. Oborn to the light. The man hearing the voices hastily decamped.
